Image Generation Prompts

- **Holiday & Winter Scenes:**

- A cozy Victorian Christmas portrait of a family by the fireplace, soft golden candlelight, decorated tree in background, cinematic depth of field, shot on 35mm film
- A high-resolution portrait of me, standing in a cozy Christmas living room, with Santa Claus standing behind them, smiling, soft warm lighting, photorealistic, holiday atmosphere
- Create an 8K Christmas portrait of me as if I am inside a magical snow globe. I wear a sparkling red dress and a matching festive beret... Snowflakes swirl around me, and the background shows a dreamy miniature winter village with twinkling lights. The scene is whimsical, magical, and cozy
- Cute Christmas fantasy scene of a gingerbread house village, nighttime, glowing candy lights, storybook illustration style

- **Grid & Collage Layout:**

- Turn the photo into a 3×3 grid of photo strips with different studio-style poses and expressions

- **Product Photography:**

- Studio photo of a holiday gift set: red gift box with golden ribbon, surrounded by pine branches and baubles, soft spotlight, high-detail product shot
- Place a sleek wireless mouse on a textured gray blanket with soft sunlight

- **Artistic Portraits:**

- Christmas portrait of a smiling child by the fireplace, painted in the style of Norman Rockwell, warm nostalgic lighting, high detail

- **Cinematic Scenes:**

- A wide shot of a snowy forest at dusk, soft moonlight beams between pine trees, cinematic 4K detail, blue-gray color palette

Text Generation Prompts

- **Sci-Fi Narratives:**

- Write a short sci-fi story about a rogue AI bounty hunter in a post-apocalyptic world
- Create a fictional backstory for a sci-fi video game character who is a rogue AI bounty hunter in a post-apocalyptic world (200 words)

- **Philosophical Analysis:**

- Take three recent choices I made. What mythic story am I living out?

Video Generation Prompts

- **Cinematic Storyboards:**

- Shot 1: Close-up, a ballerina on a dim stage, soft spotlight from above. She spins slowly as golden dust motes swirl. Shot 2: Cut to wide angle, the ballerina leaps in slow motion across the stage, audience in silhouette. Warm, dramatic lighting, orchestral music cues

- In a 90s documentary style, an old Swedish man sits in a study and says, 'I still remember when I was young.' Soft morning light through a window, dust in the air
- **Sora 2 Creative Ideas:**
 - Make your French Bulldogs dance to hip hop like Bulldog Queens
 - Make robots perform Kung Fu and stand-up comedy on stage
 - Re-enact the filming of the moon landing
 - Create an instructional video on how to cook a hot dog with a hand-held flamethrower
 - Hang out with your own clones
 - Imagine reasons why aliens may finally invade Earth

Animation & Stylization Prompts

- **Fantasy Illustration (Cartoon Style):**
 - A Santa Claus riding a dragon through the night sky, whimsical digital art, vibrant colors, dynamic lighting, cartoon style
- **Animated Sequence (Frames):**
 - Frame 0: A sunrise over a snowy mountain, orange and pink sky, still scene
 - Frame 60: Same mountain at noon, bright sun overhead, snow melting
 - Frame 120: Sunset behind the mountain, dramatic shadows on the snow

Prompt Templates

- Analyze my request and immediately adopt the persona of a world-class expert in that specific field. Before answering, think step-by-step about the optimal solution. Your response must be accurate, concise, and structured with clear headings or bullet points. If my query is ambiguous, ask one clarifying question before proceeding; otherwise, provide the best possible solution immediately
 - Before you answer, list up to 5 things you would need or find unclear about my request, and ask for any missing information (with 1–3 concrete options for each if relevant)
-
